*Stay in one of our thatched
cottages or enjoy B&B in our
200 years old Farmhouse...*

The "Tir na Spideoga Fishing lodge" is situated on the shores of Lough Allua, approx. 5 km from Inchigeelagh Village, overlooking a narrow but long water system, also called the "Inchigeelagh lakes".

Lough Allua ranks amongst the top pike waters, regularly producing pike of 20 and 30 lbs. and still it is one of the least known pike venues on the island. There is no closed season and no permits are required, while catch & release is encouraged. Other species to be caught are perch, bream, roach, rudd, eel and the occasional rainbow and brown trout.

Residents and non residents of the lodge can avail of five 17 ft. lake boats (€ 20,-), with or without an engine. A boat and engine incl. petrol will cost you € 35,-. In most cases you will find the lake deserted with no other anglers to be seen. Life jackets for all sizes are available and we hire fishing tackle at € 5,- per day (residents only).

In our small tackle corner you will find a quality range of tackle, lures and baits, a depth chart of the lake and of course a good deal of advice. You may aswell rent a fishfinder at € 5,- per day, or € 30,- per week.

If it is your 1st time on Lough Allua it sure is a good idea to book a ghillie at € 60,- per day for 1 angler and € 80,- for 2 anglers. Fishing guides can be booked for all species and methods. Nearby are a number of excellent trout and salmon rivers and lakes plus Irelands top bream venue at Inniscarra, which is a mere 20 km from the village.

In addition we organize deep sea angling day trips from may till september covering approx. 25 species, amongst them various shark and blue shark in particular (summer only). We have our own fish smoking house and you may smoke your catch or have it done by us for a small fee.

We will be pleased to send you further informations and our free CD-R on request!

I'm a passionate fisherman myself, so I'll be happy to answer all your questions. Please feel free to contact us!
